U. F. A. HOLDS BIG CELEBRATION

Under the auspices of Strathmore U. F. A., a very successful sports day was held at Strathmore on Thursday.

The proceedings opened in the afternoon with foot races, etc., and were on some good horse races were staged on Railway Avenue.

There was a large crowd present, although the celebration had only been advertised for a week previous.

The tug-of-war, Farmers v. Town, was won by the farmers after a bit pull.

During the afternoon Strathmore Brass Band, under the leadership of Handmaster Hiltz played a number of selections.

Ball Game

The ball game at 6 p.m. between Strathmore Hustlers and Carseland, was a fairly good one. Strathmore's young team, with some Southland and Willie Gray as pitchers, put up good game but Benton, though it is a long time since he first appeared against Strathmore, had still got his pitching arm in good shape, and was a bit too much for the locals.

Following is the score:

	A.B.	R.	H.	P.O.	A.	E.
Mace, c.f.	5	0	2	0	0	0
Gergule, lb.	5	3	1	8	3	0

The Boxing Boys

It is some years since these have been arranged boxing here, but the public is still interested was shown in the big crowd that gathered.

The first bout, between two local boys, Otto Tesse and Gert Collman, was fast and clean. Collman was given the decision, which is much to his credit, as his opponent is a heavy man.

The next fight was between two Calgary men, Kid Lucas and Chas. Brown, was also a good one, both men fought very evenly. Kid Lucas, the Vancouverite, secured the decision by a unanimous verdict.

Two local boys, Dave and Joe Whelan, had a good three round scrap. Whelan secured the best boxing, though it was not a very close thing, and had the curtain run down on him.

The main bout of the evening was to have been between Jim Gorman and Young McCarthy. Gorman was right on the job, but the only thing valuable of McCarthy was a wire stating that he would not put on a four-round bout for less than \$75. As it had been stated that he had previously agreed to come for a less sum the committee would not accept his terms. Ed. Sloan one of the telephone employees took up the gauntlet, and boxed three rounds with Gorman, which, though he put up a gallant fight was more in the nature of a exhibition

Provincial Elections July 18

An election for the Provincial Legislature of Alberta, which has been foreshadowed for some time, will take place on July 18, announcement to that effect having been made by Premier Chas. Stewart.

An adv. in regard to the Gov't's policy appears in another page of this issue.

So far there has been no definite declaration of candidates in the contest of election, which takes place in this part of the country. The constituency is at present represented by Mr. Fred Davis, of Irricana, who was elected as an Independent Conservative, but has been with Mr. Geo. Howland, and other Independent Conservatives, working more with the former than with the latter.

If the United Farmers run a candidate the prospect of calling a convention will have to be gone through. We understand that when this convention is held, Mr. Moore, secretary of Standard U.F.A., will be present.

The intentions of "the Government" with regard to a candidate have not been decided. It is expected that the election takes place in three weeks' time, and nominations have to be made by July 17th, there will have to be some rapid action.

Supporters of the Stewart government in the Golden constituency will hold their annual meeting on the Alexander Corner, Calgary, at 8 p.m., Thursday, June 30.

Memorial Hall To Be Open July 19

Big Sports Day

Good prospects are being made with the building of Strathmore War Memorial Hall by the contractor, Mr. M. R. Little. The walls are now up. There is a possibility of work being delayed by non-arrival of steel pipe girders, etc., which are being shipped from Winnipeg, and have been on the road for several weeks. However, it is hoped that these will arrive tomorrow.

Dedication Service July 17

The W.C.V.A. has arranged to have the dedication service on Sunday, July 17. Rev. Henry Montgomery, formerly of Strathmore and now of Banff, is being invited to be present, as also the local clergyman, and it is hoped to have a united service in the hall that evening.

Opening on 19th

Brigadier A. H. Bell and Col. Dorey C.C. are being asked to be present and conduct the opening ceremony on the 19th. It is probable that this will take place in the forenoon.

A big sports programme, headed by joint committees of the G.W.V.A., U.F.A., and Community Club, is being arranged for the 19th, and a meeting of these committees was held on Monday evening. The advertising matter will be out this week.

Regina, Sask. While drilling for water, Piddie Schenck is reported to have struck a flow of natural gas on his farm eight miles south of Nanton, Saskatchewan. The flow was not too great, but it is steady. Drilling operations stopped when gas was struck.

Farmer Has Huge Majority at Hat

Medicine Hat conclusively demonstrated the feelings of the West with regard to the present Federal Government, by returning Robt. Gardiner, the Farmers' Candidate, by a majority of almost 8000 over Nelson Spencer, the Government candidate.

As far as Western Canada is concerned, the present Government does not possess the confidence of the people. It was elected on a war issue, and with the termination of the war should have gone to the country.

The result at Medicine Hat may hasten a General Election, but it is possible that the Government may hang out its allotted term on the plea of redistribution following the census.

Town Council

Strathmore Town Council got through a number of important resolutions at their regular meeting last Tuesday evening.

First was voted to the War Memorial Hall, the decision being reached unanimously.

It was agreed to pay the King Edward Hotel \$22 per month in consideration of the public being given the use of the toilets, etc. Mr. Westmont, manager of the hotel reported that it cost the hotel too much to give the service free, particularly as the dining room was now run separately from the hotel.

The Strathmore Bakery was given permission to put in a gasoline pump at their premises, provided they put a concrete sidewalk ten feet wider from it.

The secretary was instructed to inform those who had as yet not paid their taxes that 7 per cent discount would be allowed up till August 2nd. Taxes have been coming in well, and the town now has a large sum to their credit.

The Fire and Light Committee were given authority to purchase a motor fire truck from Mr. W. C. Brown. This will be a big asset to our local fire equipment.

One member of the Council believed at a proposal to pay the expenses incurred by the Community Club in entertaining the visiting delegates on Monday week, but the rest were unanimously in favor and the motion carried.

Chautauqua Opens July 19

Domestic Chautauqua, as will be seen from adv. in another column, opens in Strathmore on July 19, and will continue for six days thereafter.

Tickets are now on sale, and literature will be distributed this week.

A fine programme has been arranged, including Miss Agnes Lutz, the latest Canadian pianist, Dr. Joe J. Gordon, Lettie Coleman, Judge Geo. D. Allen, Coffee-Miller Players, Seattle Canadian Concert Party, and various other diversified items. It looks like a fine programme, and tickets should be secured early, and the work of the Committee made easy.

Editors Appreciate Strathmore's Welcome

In a bulletin issued by the C.W.N.A. which the eastern editors were given to their homes and printed by the Fort Arthur Chronicle, a description is given of the trip east from Vancouver, over the C.P.R. The bulletin contains the following reference to the visit of the editors to Strathmore:

"It was a cordial welcome, practically a C.P.R. town, where is situated the Supply Farm producing eggs by the dozens and barrel full and where are the finest Indian live in North America, was overflowing. There is most spontaneous welcome was given and all the motor cars in the town turned out to convey the party through the supply farm and irrigation ditches. The town band played all the time and school children sang 'O Canada' while Mayor Frank Butler, extended a hearty welcome. It was a welcome that will never be forgotten nor will they forget the wholesome sandwiches handed round by the pretty girls of the town. Prof. Hutton, agricultural expert of the C.P.R. Natural Resources Department gave a synopsis of the work carried on, and the visitors were shown the milk from the famous Holstein herd. Such spontaneous hospitality was such as had never been received during the entire journey."

As an appreciation of this splendid reception a telegram was sent from Ottawa by Mr. W. H. Davies, acting president to the following effect: "The hearty welcome of the town of Strathmore was deeply appreciated by members of the C.W.N.A. and their wives. Please convey our thanks to Mayor and Council, school children, and citizens, and extend same to yourself and staff. The visit to the C.P.R. model farm was one of the educational events of our trip and enjoyed by all."

Mr. John MacKenzie, editor and proprietor of the Strathmore Standard, it is interesting to know, collaborated with the Mayor and the C.P.R. in preparing this magnificent welcome to the editors.

Naturalization Papers

During the taking of the census it has been found that quite a number of people have not been naturalized because they did not have the right way to go about it.

With the Provincial election coming off on July 18, it is necessary that they should get their papers fixed up in time. These can be obtained from Mr. E. W. R. Lambert.

CHEADLE NOTES

Mrs. W. Chaff, of Exshaw, Alta., and Miss Sue Chaff, of Ottawa, are visiting for a few days at Grand Gables.

Mrs. Tim Kildee is reported to be improving from her recent illness. Stanley Lee is feeling much better after his mishap of being kicked by a horse.

There was a large attendance of friends and neighbors at the funeral of Mrs. J. Tomlinson, at Calgary, on Tuesday last.

Mr. Fred Tomlinson, of Strathmore, is staying for a while with his father, Mr. J. Tomlinson, until the arrival of his wife from Strathmore.

The Chas. Schaeff ball team defeated London on Saturday at Langdon, the score being 17-9.

Edmonton, Alta.—The Alberta Government Telephone has made arrangements for the installation of a carrier current system of multiple telephony, sometimes colloquially referred to as "wireless," in order to establish connection between Calgary and Edmonton. This system will be the first commercial installation of its kind in this country.

Dry Weather Affects Crops

A spell of dry, hot weather, which has, at the time of writing, Monday, lasted for ten days, and having an injurious effect on crops throughout the district and throughout the whole Province, and the prospects are not as good as they were several weeks ago.

In the ordinary course a ten days drought would not do much damage, but last fall was dry, and consequently this spring there has been no reserve moisture in the subsoil. The rains during the spring have been a good start, but there is not much reserve now to draw it on.

The rains reported last week, from the 10th to the 17th, which totaled 17.7 of an inch of moisture, were unfortunately not general, and north-west of Strathmore the crop has suffered very considerably.

In this immediate district dry land crops are badly in need of rain and a good two-days soaking is what is wanted.

Irrigation is being used to the fullest possible extent, and every acre that can possibly be watered will get the water. The Irrigation Department are working night and day to satisfy the needs of the farmers.

Baseball

Nightingale 15, Strathmore Hustlers 9

Strathmore's junior team met defeat on Saturday evening at the hands of Nightingale. Strathmore pulled in the sixth inning, and almost did the score but Nightingale came away strong in the eighth, and clinched the game.

Following is the score by innings: Nightingale 1 2 0 0 3 1 4-15; Strathmore 1 0 1 0 2 4 0-9

Nightingale Team

Hove, 3b; Hovatt, p; Prater, c; Price, c.f.; Kimbert, 1b; Hunter, ss.; Campbell, 2b; Otto, 2b; Jukes, r.f.; Clark, p.

Strathmore Team

Way, c; Southland, 3b and p; Smith 2b; Brown, 1b; Hovatt, ss.; Gray, R. Baker, 2b; Anderson, r.f.; Dick, 1b; Hunsley.

"T W I L I G H T"

Sweet hour, when all the world is still, When toil is over and bathed songsters rest, When shadows gather 'round yon' grassy hill, And glowing tints are fading in the West.

When stars begin to peep from out the blue, And slowly drench the earth with fairy light, The earth is bathed in beads of shimmering dew, That drench the purple curtains of the night.

Then is my soul at rest, and free from care, My troubles banished, all my worries done, And slowly drench the earth with fairy light, For all the little burdens that I bear, Are then forgotten till the morn'ng dawn.

—by Fay L. Hartman.

Keoma News Items

Last Saturday week the Keoma Junior baseball team visited Duford and played the juniors there. A good game was played and the score was 11-12 in favour of Keoma.

The recent dry winds have dried up a lot of the crops.

The grasshoppers are doing damage in spots, but the farmers are optimistic.

Very few of the Keoma C.F.A. and U.F.W.A. attended the C.F.A. service held in Irreana last Sunday week. The Rev. Kennedy gave a most appropriate and interesting address.

The secretary of the Council held of the C.F.A. informs us that a conservative estimate of attendance at the big picnic at Lake Chocomaire was over 1200. Comment on the general good feeling prevailing throughout (one exception). The general opinion was that the affair proved a great social and financial success, and the intention is to make this an annual mass picnic. The open air dancing stage on the grounds was illuminated by Duford light apparatus.

Municipal District of Keoma

Irricana News

Mrs. McCauley and family, of this town, have moved to Calgary where Mr. McCauley has a position.

Mr. Archibald is moving into the house vacated by Mr. McCauley.

Miss Bertha Black was presented with a set of silver coffee spoons by her pupils on Friday. Lunch was served by the mothers.

Mr. and Mrs. Harry Landow have returned from their trip to the coast. Some of the farmers have started to irrigate already.

The ladies of the U.F.W.A. sold lunches at the dip last week.

Sunday, June 15, was U.F.W.A. day. A large number of the farmers attended church here.

The last of the serial "Eloise the Mighty" will be shown here next week.

The revival meetings at the Irreana church commence next Sunday. On July 18, 19, 20, the District Conference is held at the church.

A community picnic is being held on Irricana Day at the reservoir, several miles west of Irreana. Everybody welcome.

At the closing of the straw race examinations a number of the girls presented Mr. Fitch with a fountain pen. Mr. and Mrs. G. Wilson are being congratulated on the birth of a daughter, Joyce Bishop.

Mr. and Mrs. Hannah and family, of Calgary, spent a couple of days in town, the guests of Mrs. Swanson.

NIGHTINGALE NOTES

Don't forget Nightingale Sports July 13th. Look out for posters.

Bob, our storekeeper, has installed a new gasoline pump with the inscription "Gas is Cash".

We are getting our sports ground into shape. We have a two mile track already fixed up.

Everybody is trying to irrigate.

We notice in the Calgary Herald that several communities have had lots of rain.

The grasshoppers are scarce around here.

There have been a few small showers, but we need lots more.

Floyd Otto has returned home after going through an operation for appendicitis and is doing fine.

Mr. and Mrs. C. E. Henry, old time residents were visitors to Nightingale last week.

We are shortly to lose one of our popular girls in the person of Miss Mary McLean, an old timer. She is embarking on the good ship matrimony. Wilfred Longson is the lucky man, and they are leaving to live at Grand Prairie to take up a ranch. A shower was given in the Public hall to Mary, on Saturday afternoon, and she was the recipient of many useful articles. Afternoon tea and ice cream was served.

UNION CHURCH, NIGHTINGALE
Services for Sunday, July 3, 1921.
2:30 p.m. Sunday School, Subject: "The Early Life of Saul." Supr. Mrs. J. A. MacKenzie.

2:30 p.m. Public Worship. Special subject in keeping with Dominion Day week. Solos by Mr. Albert Noel, Mrs. Davenport and school.

BERTA VALE SCHOOL

Berta Vale School Junior branch of the Red Cross Society have organised with the hundred percent of the school children as members.

Following is the list of members: Henry Reynolds, Harold Reynolds, Thomas Reynolds, Gladys Reynolds, Pearl Reynolds, Harold Reynolds, Walter Reynolds, Stanley Reynolds, Audrey Grand, Nellie Taylor, May Taylor, Harold Taylor, Tom Taylor, Eva Baily, Betty Baily, Nellie Galloway, Elida Galloway, Ethel Galloway, Laura Keoma, Edith Keoma, Gordon Keoma, Miriam Thompson, Lewis E. Grant, Eva MacIntosh, John MacIntosh, Len Barry, Alice Barry, Carl Barry, Irene Lawrence.

Andrew Dancy, president; May Taylor, secretary-treasurer.

NAMAKA NEWS

On Saturday evening the Benedicts again went down in defeat before the onslaught of the hard-hitting Irons.

Early in the game the steady Benedicts hit their heads, (but not their voices) and avoided a terrific six runs principally by the young ladies went down to defeat by a score of 8-1. Even the Benedicts were just faith in them, and they departed from the diamond a sad but wiser team. Following is a list of the players in their respective positions:

Benedicts
J. McLean, p; Atkins, c; D. McLean, 1b; Thompson, 2b; Wheeler, 3b; Young, s.s.; Lewington, c.f.; Watts, c.f.; Lawrence, 1f.

Batters
A. McKinnon, p; Smith, c; J. McLean, 1b; J. Lawrie, 2b; Wells, 3b; Shoulters, s.s.; A. McLean, c.f.; G. McLean, c.f.; Innes, 1f.

Many thanks are due to Mr. Baker for supplying the winning team with ice cream.

Overheard at the Ball Game
Manager of the Benedicts—How much will you take for that star left hander?

Manager of Batters—Impossible to sell him yet, but I will ask him to report to you in the fall.

Everyman appears to be outside the ring in getting to the ball game last and when they generally arrive, they carry the ball mounds to play after dark. Come early please.

To the lovely Benedicts: "Thank you for the Home Sweet Home."

After the ball game on Saturday night the majority of the crowd adjourned to the hall to discuss the question that the home is now beneficial on the farm than the tractor.

Ray Wheeler led in in favour of the horse and was supported by a large number of speakers, while the tractor was practically put in the dust and the judges had no difficulty in giving regard to the horse.

Being the first of a series of debates lack of preparation was evident and the proceedings developed at times into a "free-for-all."

One speaker in favour of the tractor remarked that if a horse died it was gone, but a tractor died it might be brought back to life again.

Another that half of the trouble was due to the lack of understanding of the operator. And a tractor died it was gone.

A resolution was given by Irene Mc-

When the Market is low cut your operating costs

In a tractor demonstration at Dakota City, Nebraska, last fall a five-horse team was put in with the tractors. The value of the five horses and harness was \$1400. It cost \$165 to plow an acre with the horses and \$1.55 an acre with the Hart-Parrr 30. That's a saving of \$3.00 an acre. When you are getting low prices for your crops, your need for a dependable tractor is greater than when prices are high, because a decrease in the cost of production is the same as an increase in the selling price.

Dependable Tractors Are Not Made in a Minute

It takes years of experience and development to perfect a tractor the same as it takes years of careful breeding to produce a blue ribbon farm animal. Study the construction of the Hart-Parrr 30 and investigate its performance. Notice how simple it is, how easily you can get at the working parts when adjustments or repairs are necessary.

This is one of the big secrets of the Hart-Parrr 30 success. It means that the farmer can keep his own tractor in shipshape, hence prolong its life and reduce the cost of upkeep. Our new catalogue will give you some valuable pointers on the selection of a tractor. Write for it or call and see us.

"Behold My Wife"

One of the Finest Films of the Year.

Rated by the critics and motion picture public as one of the finest productions of the current season, George Melton's "Behold My Wife" is coming to the Strathmore Opera House, Wednesday, July 6th. The story was adapted from Sir Gilbert Parker's novel of the Canadian Northwest, "The Translation of a Saver."

The central characters are the aristocratic son of an English family and the simple Indian girl whom he rescues in Canada while he is on business for the Hudson's Bay Company. Breeding went down but she came back in England that she has broken with him because of his false objection to their marriage. The result, in a fit of rage, sends the Indian girl and sends her back to Canada as his wife to disgrace her blood-brother. Then he proved out to fit the tobacco in his own way, however, dramatic events work a transformation in both the young Englishman and his bride and the ending is a happy one.

"Behold My Wife" has been filmed against the background of more than 1000 mountain peaks, black Canadian leading peaks, and luxuriant English country houses. The action is interpreted by a distinguished cast including Mabel Johnson, Scott, Elliott, Dexter, Millie Allen, and Ann Perrett. The film is a masterpiece of the screen. It is a paramount production.

It is proposed to hold a full dress debate on "Reciprocity".

George McLean while out riding on Saturday, where he underwent an operation.

CARSELAND NEWS & NOTES

On Thursday, the 22nd, the senior baseball team played Strathmore at Strathmore, before a real good crowd, the season being the U.P.A. Sports Day, and resulted in a win for Carseland by a score of 9 to 5.

The teams were at full strength and the game was one of the best of the season in these parts.

The victory for Carseland was due to the superb work of the battery, Dutton and Phillips, and the consistent support given them by every part of the field. There was a marked dearth of errors in the field, which speaks well for all players.

The hitting on both sides was at times quite free, but the Strathmore team failed to give the necessary support to the field.

A good number of fans were present from Carseland and were right there with the talk, in fact, at times it sounded like all Carseland.

Mr. and Mrs. McFall, parents of Mrs. F. Crothers, drove over from Grauman on Thursday last for a few days visit before leaving for a three months visit to points in Ontario.

Mr. and Mrs. G. Coyle are now boasting of a brand new son, born on Thursday, the 22nd, at the house of Mrs. Coyle's mother in Strathmore. Congratulations and best wishes are heartily tendered.

We neglected last week to mention the splendid service rendered to the U.P.A. church a week ago by Miss Pugh as the piano and Mr. Wilson as the trombone.

All the boys and girls who intend taking in the camp are asked to hand in their names to Mr. Cook on here then Sunday, July 10th. This will be the last day that names will be received, as definite arrangements as to accommodation will have to be made then. The boys' camp will begin on

either the 26th or the 27th. Each boy will be required to provide blanket, knife, fork, spoon, cup, plates, towel and soap. It is proposed to lay all provisions and to post all expenses and pay equally. It is estimated that the cost will not exceed 50 cents a day. Every camper will be expected to comply with the rules of the camp, and only those who are willing to do so need come. Any information will be gladly given, and suggestions gladly received by Mr. Cook.

On Friday evening, the 24th, the Ladies Aid of Blind Creek held a bazaar and social evening. There was a crowded house and a most enjoyable time was had. Those taking part in the programme were: Mrs. G. Mase, a vocal and guitar solo; Miss Lena Dawson, vocal solo; Mrs. W. E. Phillips and Miss Pugh, piano duet; Miss Ballard and Mrs. M. H. Scott, readings; Mr. Ted Allinson, solo and reading; Miss Lena and Emma Dick, duet; Mrs. F. T. Cook, solo; Miss Pugh and Miss Elsie Fair, piano duet. All the numbers were well received, and were of high order.

One of the features of the program was the high class of instrumental music. Blind Creek is favoured with a number of first-class pianists. After the programme the work was sold and refreshments served.

On Friday evening, the 24th, the High School boys played the Strathmore boys at baseball and lost by a short end of the score, thus turning the tables of a week ago. We hope all the Strathmore players were school boys.

Catskill, Alta.—Five wells in the village of Watrous are oil producers. These wells were not drilled in the ordinary sense, being just ordinary drinking wells which lately have developed into oil producers. The initial discovery was made when an old well was being cleared out. Ten gallons of kerosene oil was removed. Four other wells were quickly discovered, each of which furnished one gallon of the fluid daily.

On Guard

"Eternal vigilance is the price of liberty." This is true in every walk and activity of life. It is true not only of the nation, but of the individual. It is true in the realm of political reform, in the preservation of health, in the success of any business undertaking. The man who is indifferent to neglects and sleeps on his job, cannot succeed. Failure under such circumstances is inevitable in the long run.

Once again the farmers of Western Canada have needed their ears. It is to be hoped that, bearing the above advice in mind, they have used only good clean seed, the best that could be obtained. It is to be hoped, also, that to the full extent of their available equipment, and the time at their disposal, they have pursued the best accepted methods of farming and prepared the seed bed in the most approved manner.

The growing season (at the time of writing this article) has been all that could be desired, with copious rains and cool days which give promise of a strong rooting of the grain so that it will be in the best possible condition to withstand a dry period should such fall.

But "eternal vigilance" is the price of liberty. There are many enemies to a growing crop in this western country. Farmers everywhere must remain alert and vigilant to combat these on every hand. There is the grasshopper scourge. Governments and municipalities have devised and outlined the best methods of fighting this pest, and these materials require to wage the battle have been procured. But official bodies cannot do it all. It remains for the individual farmer everywhere to do his share, to do it promptly and thoroughly. All the precautionary measures should be taken, and as ever watchful eye kept on developments. It is necessary to wage the battle against the grasshopper, not only to save this year's crop, but to insure the success of future crops which the rapid elimination of this danger requires.

Then there is the noxious weed. It takes many forms, but each and every variety is destructive, some, of course, more destructive than others. Noxious weeds have, through neglect, because of neglect in the past, ruined many a fine farm. They are still making headway, and a combined all-out warfare by all agriculturists against them is one of the pressing needs of the present time. Noxious weeds cannot be fought by farmers singly. Despite the greatest care by scores of farmers, one or two indifferent and neglected farmers can do irreparable damage to a whole district. The high winds of the west can send an immense area of land with weeds just as effectively as a drill can seed them.

Farmers compile considerable of excessive elevator charges taking an undue toll from the receipts of their year's labor, or of the prevailing high freight rates which have the same effect; or of the loss of so many cents to bushel resulting from a sudden drop in the market price. It is important, however, that they should become fully aware of the fact that noxious weeds, by decreasing the yield from their acres is taking, year by year, a heavier toll than any one of these things, and frequently a heavier toll than all of them put together.

Noxious weeds impose a loss of millions of dollars annually upon the farmers of Western Canada through decreased yield. They impose a further loss in threshing bills. They add more loss in a falling off in grade. Finally, they are a huge toll of expense for work in cleaning the land once it has been fouled, while the capital and sale value of any farm is continuously reduced from the presence of weeds, not only on the farm itself, but in the surrounding district.

Every farmer, therefore, should not only make it his personal business to clean his own land, and keep it clean, but he should actively interest himself in the affairs of his municipality and see that, through the enactment and enforcement of necessary laws for the protection of all, his whole district is cleaned up and kept clean.

Saskatoon Supplies Lamp Standards.

A shipment of fifty cast iron lamp standards by the John East Firm, York, of Saskatoon, to Regina to be placed on the parliament building grounds, is claimed to be the first order of this nature to be placed with the M.O. of Winnipeg. The lamp posts are nine feet high with a twenty inch base, weighing about four hundred and twenty pounds each.

John Bull's Shirt.

Great Britain is still working about a general strike, though her coal strike is still unheeded and she is loaded up with unworked problems, especially labor problems. But even order of this nature to be placed with the M.O. of Winnipeg. The lamp posts are nine feet high with a twenty inch base, weighing about four hundred and twenty pounds each.

You Always Get full food value for your money when you eat Grape-Nuts

Each golden granule of this attractive wheat and malted barley food is rich in nutriment for body and brain. Serve Grape-Nuts direct from the air-tight packet for breakfast or lunch.

Crisp-Delicious-No Waste

"There's a Reason for Grape-Nuts"

World Happenings Briefly Told

Watson Butcher's Glasgow cattle reports show that Canadian steers sold at 19 and 20 cents per pound live weight.

Emma Goldman, deported to Russia, is said to be pleading with her friends to obtain permission for her to come "home" to the U.S. to do her work.

Two sisters, just graduated from Athens, O., high school have attended school ten years without missing a day or being late.

Hon. S. F. Tolmie, minister of agriculture, declined to accede to appeals that the "short" berry box be permitted again this season.

A powerful "funeral trust" reaping a toll of millions of dollars from Cheongcons by maintaining high prices for funeral cars and hearses, is said to have been in operation in Chicago for years.

Six Japanese submarines have collected during naval maneuvers off the coast of Kinkishu, and one of them has been seriously damaged. As a result the proposed long distance cruise of these craft has been postponed.

Janitor of the Ventor, N.J., city council chamber, is going to strike for bigger pay because, he says, after the League of Women Voters ends its meetings the floor is so littered with cigarette butts as to cause him extra work.

PALE AND NERVOUS SCHOOL CHILDREN

Need Rich, Red Blood to Regain Health and Strength.

Many children start school with excellent health, but after a short time home work, examinations, hurried meals, and crowded school rooms cause their blood to become weak, and their nerves overwrought, their color and spirits lost. It is a mistake to let many children grow up with these early symptoms of nervousness or weak blood. They are almost sure to fall victims of St. Vitus dance, or drift into debility that leads to a life of suffering.

Dr. Williams' Pink Pills for Pale People is the best remedy for this condition. It restores the blood, cures nervousness and plenty of sleep are necessary to combat the nervous wear of school life. But it is still more important that parents should pay attention to the health of their children. Keep their rich red and pay by giving Dr. Williams' Pink Pills and the boy or girl will be insured for a good school. The value of Dr. Williams' Pink Pills for Pale People is shown by the statement of Mrs. Watson, Grand Falls, N.B., who says: "In the spring of 1919 my daughter, Thelma, then 12 years of age, began to show symptoms of nervousness, which developed into St. Vitus dance. She seemed to lose control of her limbs and at times every muscle in her body would be twitching and she would be unable to sit still, or to grow weary. We finally decided to give Dr. Williams' Pink Pills and the result was better even than we had hoped for, and she is now enjoying the best of health."

"You can get Dr. Williams' Pink Pills through any drug store, or by mail at 50 cents a box or six boxes for \$2.50 from Dr. Williams' Medicine Co., Brockton, Ont."

It Had Been Used.

The young housewife, looking very pretty and workman like in a big green overall, was clearing out her poultry cupboard.

"Ducky," she cried to her young husband, who was smoking in the spick-and-span little drawing room, "I want you to bring me a mousetrap home tomorrow."

"But, Angel," cried the young man, "I brought you one home yesterday." "I know, pet," called back the young bride, "but that one was a mouse in it!"—Spanish River News.

Sewerage Disposal on Farms.

The theory of Public Health has just passed a valuable bulletin dealing with the matter of treatment of sewage on farm houses. Sewage systems now in actual use on 72 farms have recently been examined, and the conclusions of the officials of the health, following this investigation, have been incorporated in the bulletin, which has a number of diagrams illustrating various systems suitable for differing conditions.

Accidents in Saskatchewan.

Industrial accidents in the province of Saskatchewan during the month of April numbered 31, none of which were fatal. Of these 31 were accidents to employees on steam or electric railways, and 18 among the other trades.

All Alike.

If there's truth in the report that Lemire has gone away, they won't be able to distinguish him from the rest of the bunch.—Atlantic Constitution.

Palpitation Of the Heart

Many people are kept in a state of morbid fear of death, because weak, nervous, and miserable, and are unable to attend to their household or business duties through this unsustained action of the heart.

To all such sufferers Milburn's Heart and Nerve Pills will give prompt relief. I began to feel better after taking Mrs. F. N. Gaultier, Tilbury, Ont., writes: "I was suffering from a very troublesome palpitation of the heart, and sometimes so much that those around me thought I would die at any moment, being so much weakened by the shipboard of the palpitation which would last sometimes up to 3 hours. I had the doctor who kept me taking his medicine to overcome the disease, but to no effect. There was no change at all for the better. Two years ago a friend advised me to use Milburn's Heart and Nerve Pills. I began to use them at once, and at the second box I began to feel some relief. I continued to use them according to directions and now I am perfectly cured. Before using the pills I never weighed 100 lbs., now I weigh 117, and feel as if I were young although I am over 66 years of age."

Price a box 10¢ at all dealers or mailed direct on receipt of price to T. Milburn Co., Limited, Toronto, Ont.

The Cattle Commission

Terms of Reference Important to Canadian Interests.

As Canada has a direct interest in the outcome of the investigation now being conducted by a special British Royal Commission in the matter of the cattle embargo, some importance attaches to the terms of the reference under which the inquiry is being made. The commission is composed of Viscount Finlay (chairman), Lord Ashkith, Sir Algernon Herby, Sir Harry Pate and Sir Arthur Shipley, and the reference is as follows:

"To inquire into the admission into the United Kingdom of livestock for purposes other than immediate slaughter at the ports, whether such action would be desirable and cheapen the meat supply of the country, and, if so, to what extent, and whether it was advisable, having regard to the necessity of protecting livestock in the country from the introduction of disease, and of restoring their numbers after losses to which they were subject during the war."—Montreal Gazette.

The making of artificial pearls is a considerable industry in France. The French craftsmen obtain fish scales from the Baltic fisheries, and use these shaggy scales to give glass beads the lustre of pearls.

Knicker—That florist surely keeps in touch with the slogan, "Say It With Flowers."

Knocker—What's his method?

Knicker—Sends a bunch of forget-me-nots with each bill.

One of the most efficient wireless systems is the invention of Japanese electricians, who were among the first to experiment with radio-telegraphy.

Wash Day and Backache

WASH DAY is the least welcome day of the week in most homes, though sweeping day is not much better. Both days are most trying on the back.

The strain of washing, ironing and sweeping frequently deranges the kidneys. The system is poisoned and backache, rheumatism, pain in the limbs result.

Kidney action must be aroused—the law awakened to action and the law regulated by such treatment as Dr. Chase's Kidney-Liver Pills. This favorite prescription of the well-known French think author will not fail you in the hour of need.

One pill a day, five a box at all dealers, or Minard's, Hites & Co., Ltd., Toronto.

Dr. Chase's Kidney-Liver Pills

"Your Teeth"

By R. H. Proctor McGee, M.D., D.D.S., Editor of Oral Hygiene.

THE MAGIC OF THE TEETH.
Copyright, 1921, by R. H. Proctor McGee.

No other person has ever seen a picture or a landscape or a beautiful face or a sunset just as you see it. No one has ever heard a piece of music or a thunderstorm just as you heard it.

When you and your dearest friend read the same book or hear the same story you will always differ a little in your understanding of it. This is because every impression that comes to you is moulded by your own personality. Your personality is like an expert and import tax; it gives every act of life—every effect every impression, both coming and going.

Personality is the sum of all your experiences and of your ideas and of your memories, plus your physical condition. Your appearance is a large factor in your effect upon other people; it is one of the great factors in your effect upon yourself.

We all love magic and the supernatural because the everyday humdrum of solid fact gives our nerves. Fairy tales are not for children; they are for grown-ups.

We call them "novels" and we always expect the magical power of good to overcome the sorcery of evil. Our heroes and heroines are always endowed with beauty, health, energy and youth, because in our experience these conditions give a desirable personality and contribute to a happy present and a good old age.

Our villains are endowed with forbidding faces, crooked bodies, often with ill-health, because we know that these things warp the disposition and frequently change a pleasant personality into an unpleasant one.

Do you ever hear of a beautiful heroine or a manly hero whose smile showed a row of decayed teeth or injured gums? Do you remember how quickly "Dr. Jekyll's" even and beautiful teeth changed into protruding snaggle teeth when he became "Mr. Hyde?"

Your mouth and teeth make up seventy-five per cent. of your facial expression. Who wants to look like "Mr. Hyde?"

Belgian Consul For Alberta.

Appointment of H. Milton Martin as Belgian consul for the province of Alberta has been made, according to official information received here from the Belgian consul-general at Ottawa. His name has been signed by the King of the Belgians and sent forward to the ambassador in London for King George to endorse.

On the Marriage Day

Romance usually ceases and history begins, and sore corns begin to go when "Pittman's" is applied. It takes out corns, roots, blisters, and all the other things that come after honeymoon. It's a single corn killer for Pittman's. Faith, zeal, all at dealers. Refuse a substitute.

"Homing Squirrel" in B.C.

Many Attempts Made to Lose Him Have Failed.

A "homing" squirrel of more than ordinary sagacity and cunning is the subject of a great deal of interest in West Westminster, B.C. It took up its home in the rafters of the home of George H. Small some twenty years ago with the evident intention of spending the remaining years of its life there. Various attempts to lose the squirrel proved fruitless. On one occasion it was taken to Vancouver and liberated in Stanley Park, but thirty-nine days later it was back in its West Westminster home.

"There is no doubt of the identity of the 'homing' squirrel," said Mr. Small, "he always comes to the same house for his food on his return, and then repairs to the same hole in the roof which is the entrance to his home."

The squirrel has now been taken to West Vancouver, and will either have to fly the coop or come over on the ferry if it elects to return home.

Freedom from Asthma. Asthma is one of the most distressing troubles, sudden in its attacks and prolonged in its agonies. Frequently many things are tried, but nothing seems to give hope of relief. Dr. J. K. Kellogg's Asthma Remedy can be depended upon. Do not fail to get this once a package of this uniformly successful preparation.

Expired.

Landlady—You afraid the coffee is exhausted?
Boarder—I'm not surprised; it has been very weak for a long time.—(Sydney Australia) News.

U.F.A. Meeting

A meeting of the Strathmore U.F.A. was held in the King Edward Hotel on Saturday, June 25th, a fair attendance being present. Mr. Moore of Standard, was here and gave a short address on the coming election.

As Mr. Moore was just staying a short time while on his way to Calgary his address was only heard by the members present at the U.F.A. meeting, but we hope to have him here again in a few days to address the public generally.

The question of Nationalization was brought forward and for the benefit of anyone concerned, we wish to state that the necessary papers for same can be obtained at Mr. Laubert's.

STRATHMORE U.F.A. THANKS DONORS

On behalf of the U.F.A. I wish to thank the citizens of Strathmore who helped in the sports on June 22nd, both by their donations of prizes and contributions for same.

Those following assisted in making the day a success:

Messrs Barbor & Craddock, Union Bank, J. Van Tighem, Dr. Givins, Mr. Ostry, A. Gray, J. Taylor, W. Riddell, Crown Lumber Company, J. Newman, T. H. Eves, F. Miller, B. Davis, L. Johnson, E. Fox, Messrs Anderson & Sons, E. W. R. Lambert, J. Mackenzie, W. M. Marshall, M. B. Garrett, J. Saunders, A. T. Potte, H. W. B. Bell, F. Seales, Messrs Hunter & MacDonald, G. Smith, R. Anderson, F. Butler, Strathmore Bakery, Strathmore Restaurant, Calgary Brewing Co., Calgary Herald.

The way in which the judges at starters did their work must be so admired by all. This was carried out most efficiently by Mayor Butler, Mr. Pakenham and Mr. Barbor.

The U.F.A. take this opportunity in thanking all who helped to make their sports a success.

W. E. SPRINGTHORPE, Secretary.

TO THE MINISTERS OF THE CHURCHES OF STRATHMORE.

Ref. Gentlemen:

I have been instructed by the members of the U.F.A., Strathmore Local, to send to you through the press their appreciation of the interest shown by you at the services held on U.F.A. Sunday.

W. E. SPRINGTHORPE.

Local Gossipings

OF LOCAL INTEREST

Readers are requested to send in items for this column not later than 12 o'clock Monday noon preceding day of publication. All local news items are welcomed by the Standard. Phone 17 or 68.

Strathmore Lodge A.P.F. & A.M., to the number of over 25, attended divine service on Sunday evening in St. Michael's Church, Strathmore.

The officiating clergyman was Rev. Bro. Atwood, of Ogden Church, Calgary, who delivered an impressive service on the four cardinal virtues, wisdom, temperance, fortitude and justice and prudence.

The Anthem "Lift up Your Heads," was excellently sung by the choir. There was a full congregation.

The brethren assembled in the Lodge room at 7 p.m., and marched in procession to the church, returning to the Lodge room after the service, where cordial thanks were rendered.

Bro. Atwood for his kindness in coming down to conduct the service. Rev. Mr. Curtis took up Mr. Atwood's service at Ogden.

The Lindsay Farmer, in reporting a suicide case in last issue, states that deceased was found in an emaciated condition. Probably the same kind of emaciation that the south of Ireland is trying to get at present.

The Imperial Oil Co. have now placed a truck in service from the Strathmore station, and are making deliveries of new kerosene to Cochrane, Stettin, and Nightingale, besides handling the local business.

W. H. Coulter, one of the men who is engaged in the walk from Vancouver to Halifax, passed through Strathmore on Friday. Before 12 days of railroads and motor cars, walking this distance might have been justified, but nowadays it seems a waste of energy.

While the policeman was here we held hopes that possibly a job could be secured for him in irrigation work, but he did not take kindly to the suggestion, stating that he could not stop his walk now that he had started.

Coulter, who claims to be an old soldier, and has his coat and shirt plentifully covered with buttons, etc., differs from most old soldiers, who had enough walking during the recent war to satisfy them for the rest of their days.

"Lifting them up and putting them down," was the most frequent exercise indulged in in the Army, the infantry bearing the pleasant sobriquet of "gravel crushers" or "mudcrushers."

The population of the town of Strathmore, according to the census taken on June 1st, was 579. This does not include the C.P.R. Demonstration Farm. Mr. W. C. Kuyvel was the local enumerator.

Mr. F. C. Butchart was on a visit to Strathmore last Thursday and Friday. Mr. Butchart, who is a veteran of the Great War, had both his legs amputated above the knee, following an engagement in April 1917. He is at present a patient at Sunnyside Hospital, Calgary.

Mr. Butchart is the author of a number of poems, etc., which have appeared in our columns of late, and have been much appreciated by our readers.

Two young Chisleme men were fined \$15 each and costs at a J. P. Court held in Strathmore on Saturday on a charge of disorderly conduct.

Strathmore Hardware have reopened their restaurant, and the public are invited to make the fullest use of it. The restaurant had been closed to the public for some time owing to Mr. Poole and his family having been unable to get a house in town, but they have now rented the Tibbett's home on First Street.

Mrs. Gibson is at present visiting her daughter, Miss M. Gibson, of the Union Bank staff.

Friday of this week, being Dominion Day, will be a public holiday and all stores and places of business will be closed.

During the hot weather the gymnasium class for boys and girls at the Union Church will be discontinued until further notice.

What about a young man's open-air athletic club? Mr. Nat Davis will be glad to hear from anyone interested.

The new rural telephone are now being installed and subscribers from this exchange will now be able to say "Hello" over a much larger radius than heretofore. Subscribers to the south will have a much better service than before, additional lines being put in to relieve the congestion and Blind Creek and other points across the river will probably be linked up with this exchange.

Strathmore, Alberta, June 29th 1921

ELECTIONS ARE CLOSE

For the next three weeks Alberta will be in the throes of a Provincial Election. It does not look at present as if it will be a very exciting contest. There does not appear to be the same amount of discontent found with the running of Provincial affairs as there has been with Federal.

The policy of the farmers in regard to provincial affairs has not been sharply outlined their main activities being directed against the protectionist system.

As a matter of fact, there is no excuse for party politics in the administration of the affairs of the Province. The population of the Province is somewhere in the neighborhood of half-a-million, and the Provincial Parliament is really a glorified Country Council. What counts with the electors is the election is more the man than the party.

At present there are no candidates yet put forward for Glenora riding. As the only local newspaper in this part of the riding, we purpose to give each candidate a square deal in regard to reports of meetings and use of advertising space to expound their views. Only a small proportion of the electors usually attend the political meetings, and for the views of the candidates they look to the newspapers.

It is felt in some quarters that the time allowed is too short for any disposition to organize effectively, and it will require some hustling for the candidates to be selected, nominated, and push a campaign by the nomination day, July 11.

LOCAL BASEBALL SITUATION

Apparently there has been somewhat of a rift within the late in baseball matters locally during the last two or three weeks. Strathmore has for that time been represented only by the junior team.

The stoppage of the Sunday ball games has had something to do with this, as country players contend that they cannot come in during the week days. There has also been some friction among members of the team at having been dropped out in a game some weeks ago when a number of outsiders of doubtful value were brought in.

The attendance of the public at the games since the season opened has been very good, and it is not fair to them to entertain them with third class baseball. Good sport is a fine thing. A man can be happy at a ball game for an hour and a half even though he has worries of various kinds and it is the duty of a community like Strathmore, the centre of a considerable population, to organize amusements.

Don't have the best players in the district warming the bench. Get the senior team on its feet again, and keep it there. The public will turn out if they know that something worthwhile will be put up. Rockyford, Standard, and Glenora are within easy motoring distance and it is a pity that when the season opened, a league of these towns was not formed. This is not by any means deriding the junior team. They are a good bunch of boys, and are developing into good ball players. Some of these could be used in the seniors, but it takes the addition of the old-timers to make a winning team, and one that the public will turn out to see, and pay half-a-dollar for the privilege.

Sunday School Convention

A very interesting convention, at which Sunday schools from all over the district took part, was held in Strathmore Saturday and Sunday last. A large and interesting programme was carried through, and the delegates returned to their homes on Sunday evening, feeling stimulated to carry on their work for another year with greater zeal than ever.

Following was the programme of the Convention:

Saturday
Supper in Union Church; address of Welcome, Mr. Arthur Shaw, Supt.; Presidents address, Peter Macleod, Glenora. Singing led by Mr. E. Scruton, Calgary. Report of Nominating Committee. Election of Officers. Choosing place of next Convention. "How we got our Bible" illustrated. Mr. R. N. Matherson, Glenora.

Sunday
Devotional Services, Mr. Philip, Strathmore. The Sunday School a Factor in Nation Building, Mr. Lyttle, Beaman. "How to obtain and maintain a girl's interest, Miss H. Seem, Calgary. Sunday School Session, Supt., Strathmore. Lesson for July 2nd, Mr. P. Macleod. Reports at Sunday Schools in District.

School Children's Manners

Editor, Standard.

Through experience at the school I have been enabled to know something of the condition under which our children are being educated. An important part of their education has to do with their conduct, at play, and during recreation. I am convinced that little effort has been made toward either direction or supervision. Many people are keenly anxious about the associations formed while their children are at play. To isolate a child or to prevent group formations of happy boys and girls is injurious.

Most people, whatever their private loves may be, outwardly conform to the accepted standard of good conduct in public. Our children should at least do this.

After closing the school last Friday, a boy, possibly not expecting me to hear, used most vulgar language on the street. In the presence of other boys, none of whom seemed to regard it as unusual. Little may easily have been within hearing.

I decided to lay information before proper authorities to have that boy publicly reprimanded. I reported the affair to the School Board, they declined to support action. I reported the affair to the provincial police, and it will be investigated by the authorities at Edmonton, sometime in the future. In the meantime that boy with others is about town, possibly using language that would shock the most depraved. The only hope is that we have supervision at play and supervision for occupation at other times.

Why not ask the Council, the School Board and other organizations to form a program for the summer. Provide an instructor to take charge of the park at a certain hour every afternoon. Let mothers have a feeling of security that the 150 boys and girls may go there to be cared for. Teach the children to swim. Organize a class in sewing or cooking. Let parents contribute a small amount toward the cost. Make the park a centre for the community, and so bring to bear the very uplifting influence on our coming citizens. The Mayor should make the start.

M. E. SLV.

STRATHMORE TROADERS
An amusing comedy was staged in Bill Bailey's potato patch one night last week.

It seems that a couple of Strathmore's young men were returning from a little walk just west of town, and on nearing the potato patch were suddenly confronted with a bull calf. Not knowing its intentions they straightaway made a bee-line under the fence, the being chased out of its game the bull promptly set up a howl. Oscar Miller, who was passing at the time, saw the timely rescue by chasing the bull home.

It is understood that these troaders can handle this animal in town but we advise them to keep away from the country after dark.

True Bear Stories

By O-G-E-M-B-E-S (Little Clerk).

(Copyrighted)

An old Indian friend of mine named Robert Bear (still living), with whom I passed the spring on two neighboring stages in the floodland lakes of the lower Saskatchewan many years ago, told me that with me he had many interesting experiences round the camp; some fire being built on a clay bottom, on the pole, which formed the roof of early, and I have known the water rise close to the floor, but this only a short time, and when the water had subsided at the elbow of the Big River.

Robert was a sincere Christian and a devout member of the English Church which has done so much to do the work amongst the Indians of the Northwest; his grandfather was, it is said an Esquimaux, while he was born and brought up amongst the swampy Cree of the lower Red River settlement. A splendid big game and fur hunter, he was remarkably cool in momentary danger as the following incidents will show.

At my request for a story one evening about said, "I was in the employ of the Hudsons Bay Company at Fairford Post, situated at the north end of Lake Manitoba, and the morning had occasion to send an express packet of importance to Fort Garry; this I was to take alone and on foot, I decided to strike a trail through the bush and swamps. It was in the spring of the year I was travelling light; a H. B. blanket, 3 pairs of trousers, a pair of moccasins, a single barrel flint lock gun; tomahawk and scalping knife with some tea, tobacco and matches made up the outfit. I took no provisions, as I depended on game killed en route. The morning roughly speaking would be about 100 miles, and my second morning out I started as usual at the first peep of daylight and after an hour or so walking came out on the bank of a small round lake, a long stone throw across; on the other side directly opposite me were two black bears standing on their hind legs and scuffling. One of them appeared a trading ball on top of the short charge in my gun, opened the barrel and tapped the stock to allow the powder well up; just as I was occupied in this the bears dropped on their four feet, looked across at me and then taking different directions, started at a clumsy gallop round the lake. One thinks quick in a moment of this time I was not a little startled, as I saw a single barrel to meet both bears, once so I started to run and meet one of them, he came on at the same pace when within a few feet I fired and killed him dead, then with my foot on his body I loaded as quickly as possible, but none too soon as the other bear was very close and I was careful aim fired and killed him dead within a few feet of his mate."

"I knelt down and thanked God for mercifully preserving my life (truly I was a lesson in Indian life) and how few white men would have thought of their Maker. Well, my gun was a good one, the bears were both young males and in prime condition; I decided to camp for a while and dry the skins so that I could put them in my pack and it would make pocket money in Fort Garry; while the skins, after being carefully arranged, were drying, I cut a quantity of the meat up in thin strips and laid it on stakes in the smoke, this meaning grub for the trip. There was still a quantity of meat over and I did not want to waste the good food; fortunately there was a muskox close and on pulling upon a lot of moss I came to rest and on that I piled the muskrat, then placed heavy logs over the cache to keep it dry. My Wolver-

This was the only exciting occurrence on my trip, the next evening I was in a small Indian camp, and as the territory was very fertile, I directed them to my bears meat cache and told them they were very welcome to the meat."

Many years after this Robert moved with his family to the south branch of the Saskatchewan. He had a small farm, where from this time he went on extended hunts in the winter and crop his land in the summer time. About the year 1900 or so he later I had started for trading in the Stony Creek district (near Moffort), and on a trading trip to Chaska-on-the-hills, at the Wapiti-gene-mo, I was offered pairs of three black skins and at once inquired what happened to the rest of

the skins. They story told me that the snow-on-the-eye was by a large old grizzly had wandered in from the plains (and not hibernating like the black bears) had found the winter dens of these inmates, dug have killed them, and then, thus mutilated the hides; he had followed the track for some distance northwards and then dropped it. In the meantime the news of Mr. Garry's arrival had spread far and wide as they were rare visitors in the north country. Robert Bear was one of the first to hear of it and never having said a grizzly he determined to track him at all possible.

He was, I think, some three days on the trail, a mile before with a single barrel gun, axe and knife, but at this point porcupine quills had been the oblique flint, and after considerable circling he found the track at the main Saskatchewan River below the Forks; the bear crossed the river here and took to the dense bush; finally the track freshened and Robert stopped, overhauled his gun, reloaded the cap and then with determination that it was either him or the bear to cross the Great Divide, he waited for a favorable wind, and then, springing like a bolt, dashed forward, in great alarm the trail.

(To be continued)

Forestry Cheaper Than Chewing Gum

Small Sum Spent For Maintenance of Branches.

Canada's total expenditures on forest protection are about twice as much as those on chewing gum.

To any Canadian who may protest that the allotments of money for forest protection by any government or private interest appear excessive, let him consider some of the bills the forest department is obliged to pay for their everyday luxuries.

We spend on face powder and perfume \$10,000,000. The bill for fire cream comes for juvenile Canadians is larger than the total amount spent on all forms of forest protection and forest fire fighting in Ontario.

The national bill for cigarettes alone is over \$23,000,000 and for cigars over \$12,000,000.

When any different direction is heard that the nation is paying too much for the maintenance of forestry branches, let it be considered that all such expenses would together hardly come up to the national outlay for the single item of chewing gum.

Glowing Stories

From Oldfields

Party From Fort Norman Tell of Riches of District.

A party of nine have reached White Horse, N.T., from the Fort Norman field with glowing stories of the richness of the district. The trip from Fort Norman to White Horse, including a side-trip made in 60 days, returned a side-trip at Fort Norman.

There were no hardships on the trip, and they got back with the 35 dogs with which they started.

Members of the party reported that they went 50 miles below Fort Norman was recently capped outside a heavy pressure.

Fewer than 100 claims have been staked so far, it is reported. These trading posts at Fort Norman supply the district with provisions, there being a plentiful supply of everything except salt.

Representations have been made to Ottawa to permit applications for claims to be filed with the land agent at White Horse in order to save the long trip to the recording office in Edmonton.

The Elusive Maid

Juan belived in open and frank friendship with young men, without any sentimentality. One young man gave her an endless amount of trouble.

One evening he plucked up courage and said to her, "say, look here, jolly old man. Let's get married."

She replied, with a laugh: "Good heavens! Who'd have me, old thing?"

The Mightiest Jaws

The wood-testing Tabor of the Forest Products Laboratory in Michigan has been designed to crush a pair of feet square like an egg shell, so to exert in million pounds of pressure on a small structure 30 feet high.

The tremendous force can be exerted with the slowness of a building straining in its wooden foundation, or with the swiftness of an express train crashing into a wooden trestle.

A Great Police Force

Royal Canadian Mounted Police High in Estimation of West.

The Federal Government was wise in announcing in parliament that the identity of the Royal Canadian Mounted Police could be retained.

The west needs the mounted police and the great work of the force is a matter of more than police with all true westerners. The eastern members of parliament can never appreciate how the Riders of the Plains have helped build the west, make Canada and lay some of the foundations of the empire. Old timers of the west do not need to be told what the mounted police mean to Canada and many new Canadians have appreciated the police deeds of the superb force, while others can but guess at the private work of the body that has been almost the only known representative of law, order and justice in the far-flung outposts of this part of the British Empire. No other police force in the empire stands so high in the estimation of the people as the mounted police. No other body of police is such a terror to the evildoers; the pride of the nation in doing the great and grave things that had to be done, is justified. The self-satisfied critics of the west never realize that the mounted police aided them in sitting at their ease in their chairs but the west knows and will do the evildoers.—From the Brandon Free Press.

Hon. A. P. McNab, Minister of Public Works for Saskatchewan, whose department is erecting beautiful buildings at Saskatoon and Weyburn.

Villa's Big Harvest

Former Bandit Has Changed From Destruction to Production.

Everybody interested in the prevalence of peace and prosperity in Mexico will be pleased by the statement that Francisco Villa, formerly a leader of bandits in the Southern Republic, expects to harvest 50,000 bushels of wheat on the large tract of land given him by the government. He has not actually turned his arms into agricultural implements, but he has changed from destruction to production, and his new crop is a fine example of a success that will redound to his credit. In other words, it will be to know that Villa is now raising grain instead of raising "Cain."—From the Christian Science Monitor.

Germany Supplying Houses For France

Deleated Nation Going Into Portable Dwelling Business.

According to the Ministry of Liberated Regions, Germany will soon commence the delivery of twenty-five thousand wooden houses to be erected in the devastated zone of Northern France. The dwellings in question will be somewhat similar to the portable huts which the Canadian summer resort camp colonies, but they will be built more solidly.

There is no room for particularly ironical in this Paris announcement and its relation to British Columbia. For it means that the defeated nation will be quick to assist in the rebuilding of the wooden house in Europe. And very probably grant that tremendous business to which Agents-General have directed the attention of this province more than twelve months ago. If Germany gets its foot in the door, we must expect her to take the portable house business of Mesopotamia, Palestine and eventually that of the Antipodes.—Victoria Times.

Where Age Is Respected

Turks Work As Long As They Are Capable.

Old age makes no difference in Turkey by a capacity and willingness to work. A certain Murad, employed as a messenger by the Turkish telegraph office, was offered a pension when he reached his 120th year. He refused it, as it meant knocking off work, but his superior insisted he must make room for younger people who otherwise could find no work, and would have no objection to his continuing in his place. This seemed fair and he was told to bring the son of the son presented was a white-haired man more than 70 years old.

Oldest Twins

Win Ten Dollars

Men 87 Years Old Take Prize at Musical Comedy.

Twins, 109 years of age, 218 brothers and sisters, mostly brothers, having attended the musical comedy "Two Little Girls in Blue" featuring the Fairbanks pair of girls at the George M. Cohan Theatre, New York.

In recognition of the announcement that a \$10 gold piece awaited the oldest pair who would come to the performance of the musical comedy, Emanuel and Leopold Klein, 109 years old, crossed the East River and took away the chief award for being 87 years young and active. Seats were given to them in a stage box, and with them were seated Mrs. S. Boschart and Mrs. Jennie Cohen, twin sisters, aged 78 years, and William and James Farmer, 75 years old, both Civil War veterans. The other twins filled the remainder of the boxes and many seats in the orchestra.

An Unsinkable Plane

Novel Craft Is Designed For English Channel Service.

One of the latest ideas for the continental air service is an unsinkable airplane. It is being constructed by the Stag Lane Aerodrome Company, of Epsom, Surrey. The buoyancy is obtained by an inflated air balloon attached to the rear end of the fuselage near the tail. It is claimed that this will keep the machine well above water level in the event of an accident. In the roof is fitted a sliding mine emergency door through which travelers would be able to escape.

The inventors do not interfere with the speed of the machine, for it will make 120 miles an hour.

Robert's Reward.

Mrs. Boram—"Elly, why isn't your brother Robert at the party, too?"

Elly—"Flora's, Bobby's been a good boy all week, and mother said he wouldn't come."

Every dollar spent in your home town is a boost for the community.

Building For The Future

Everybody interested in the prevalence of peace and prosperity in Mexico will be pleased by the statement that Francisco Villa, formerly a leader of bandits in the Southern Republic, expects to harvest 50,000 bushels of wheat on the large tract of land given him by the government. He has not actually turned his arms into agricultural implements, but he has changed from destruction to production, and his new crop is a fine example of a success that will redound to his credit. In other words, it will be to know that Villa is now raising grain instead of raising "Cain."—From the Christian Science Monitor.

Increase In Dairy Products

Valued at Half Million Dollars Over Previous Year.

Percy E. Reed, dairy commissioner for Saskatchewan is responsible for the statement that there was an increase of 40,000 pounds in the creamery output in the province in 1920. The statement is of dairy products for the year in the province was estimated at over \$23,000,000, an increase of about half a million dollars over the previous year. There are now 47 creameries operating in the province, 43 of these having their butter graded for provincial markets. Over half a million pounds more of government graded creamery butter was sold in 1920 than in the previous year.

New Administrator

Is Mining Engineer

Staff Will Include Detachment of Royal Canadian Mounted Police.

Announcement is made that O. S. Paul, well-known mining engineer, has been appointed administrator of the new oil territory on the Mackenzie River. The staff of the administrator will consist of thirty-five men, including a detachment of the Royal Canadian Mounted Police. This number will include civil servants, as well as geologists, surveyors, engineers, and all the workers necessary for the opening up of a new country and the establishment of a government.

Truth-Telling Tommy

A woman decided to give a honest answer to her husband's question about hat rack and was showing this to one of the visitors when her little son came.

So engaged was the hostess in pointing out the good points of the hat rack that for a few minutes she did not notice the arrival of the little boy, but when she did she saw that he was still wearing his hat.

"Tommy," said the mother, "what did I say this hat stand for?"

"For \$2," retorted Tommy, "but you said I wasn't to tell him."

Austrian Sells Child For \$30.

General indignation has been aroused in the town of Rich in the province of Upper Austria, by the action of George Elischer, a well-to-do butcher, who sold in an inn his four-year-old son to a horse dealer for 10,000 crowns, now equal to about \$30.

In another case, an innkeeper publicly offered his two other children for sale, asking the same sum for each.

Indian Treaty Party Travel To Far North In Modern Houseboat

Ready To Market The Wool Clip

Warehouses Opened at Regina and Portage la Prairie.

The Canadian Co-operative Wool Growers' Ltd., are making arrangements for handling the 1921 wool clip of Manitoba and Saskatchewan, and as was the case last year they have decided to operate two wool receiving warehouses, one at Portage la Prairie, Manitoba, and the other at Regina. These warehouses will be open to receive wool and shippers from June 1 to August 15, and upon request woolstacks and paper twine will be sent out to contributors from these points. All correspondence will be handled from the Regina office.

The company on request, in addition to forwarding woolstacks and paper twine to contributors, will also forward sufficient Cooper's Dip, either powder or liquid, to destroy the pest ticks, the cost being deducted from the wool returns. All wool should be shipped to reach the company's warehouse either at Portage la Prairie or Regina, between June 1 and August 15. The wool will be shipped in bales from the above points in original sacks to the central warehouse at Weston, Ont., where it will be graded by experienced graders from the Dominion Livestock Branch and weighed by a Dominion Government weighmaster. It has also been arranged that on request from the producer, an advance payment of approximately two-thirds of the market value of the wool will be sent out as soon as the wool has been graded, the wool being sold when in the opinion of the management, it is possible to obtain its market value. The wool will be paid to the producers, who will be paid everything from the sale of the wool less the actual cost of marketing, as provided by the by-laws of the company.

Value in Dairy Products

Increased at Half Million Dollars Over Previous Year.

Percy E. Reed, dairy commissioner for Saskatchewan is responsible for the statement that there was an increase of 40,000 pounds in the creamery output in the province in 1920. The statement is of dairy products for the year in the province was estimated at over \$23,000,000, an increase of about half a million dollars over the previous year. There are now 47 creameries operating in the province, 43 of these having their butter graded for provincial markets. Over half a million pounds more of government graded creamery butter was sold in 1920 than in the previous year.

Kaiser's Peace Terms.

A document is said to have been found in the German archives in which the former Kaiser outlined the peace terms that he intended to impose if he had won the war in 1917. They included an indemnity of \$40,000,000 from the United States, and the Germans accept American sympathy in their resistance to reparations payable to the Allies.

Advantage To Buy British Goods.

"The new budget has made it more advantageous than ever to buy British goods rather than those of United States manufacturers," declared Capt. Evan J. Edwards, responsible trade commissioner in Canada.

Millions For Roads.

The government of Manitoba will spend \$3,000,000 on the construction of roads throughout the province during this year.

JOKES

A fashionable mother had been annoyed with her little girl for staying on her side into the crowd. "Why don't you take hold of my skirt?" she asked at last very sharply. "Please mamma," ventured the child, "I can't reach it."

"Come, old man, cheer up," said the kind friend. "There are the young men, 'but to think that I've got to go on paying the installment on the car for another year yet. That is what I call 'jars.'"

A Jewish lad was a bit of a tender, and his father was proud of his abilities. One day he fought a Christian boy and the father watched the fight. "The Jewish boy is a tender, and although he steadily stood his ground, the Christian boy was soon off for him. 'Jump about a bit, Ray,' said the worried father. 'I can't stand it. I'm standing on a nickel.'"

P. C. Hutchins, Carleton Place.

For Irrigation Convention

The newly formed irrigation districts are likely to be faced with their development, and in this respect they will be following the experience of the old irrigation districts in the United States. How these problems have been solved there will be the subject of a discussion led by W. P. Laidman, of Vernon, and A. Griffin, of Brooks.

Another address will be given by the irrigation farmers in the production of dairy fodder on the irrigated farm on which R. H. Helms will give an address.

A feature of the Convention will be a visit to the celebrated Coldstream Ranch and other places in the neighborhood of Vernon. The Coldstream Ranch is one of the oldest and largest ranches in the Okanagan Valley, and it was here about thirty years ago that the great fruit growing possibilities of the Okanagan Valley were first demonstrated.

Many trees planted at that time are still bearing fruit. Reports from the Okanagan valley that the largest fruit crop in the history of the Valley is expected this year. The various fruit trees have passed through the blossom stage practically without injury and by the time the Convention is on they will not doubt be burdened with fruit.

"Cow Bill" has been wonderfully successful in enabling farmers in newer districts to secure capital for improvement loans. Farmers under another act from unscrupulous machinery and a cruel deal of other and other legislation might be mentioned. The government in all its dealings has recognized that the home of the agriculturist of the province rests largely with the stock, the stock, and dairy interests and has endeavored to see that the full extent of its power.

In Interests of Women

Alberta women are especially favored.

Alberta was the first province in Canada to grant equal provincial and municipal suffrage.

A mother has equal rights with the father in their children. Married women have full control of their own property. Women have a special interest in the "Exemption from Soldiers Ordinance," which protects the family home from the ravages and exactions of a soldier's wife. A woman's separate estate, despite provisions in a will to the contrary, is also protected. Other legislation has been introduced for women. When more could the government have done for them?

Helping Rural Schools

The educational facilities in Alberta are on a high plane. In order to promote the efficiency and encourage the permanency of rural school teachers the government pays one-third of the cost of building and furnishing the teachers' homes. Un-subsidized schools, where they are desired, are aided by government grants. Where construction is possible or is not desired, three times the usual rate is made to improve schools. Educational facilities may be largely increased. The educational opportunity of the child in the rural community is now more nearly equal to that of the child in the town or city, by reason of special legislation providing for high school education in the districts. The government believes in providing educational facilities for even the most remote and isolated of the children of settlers either from the railroad or settlement may have a fair start in life.

Shave YOURSELF?

Regular meetings, Monday on or before the full moon.

Next Regular Meeting Monday, July 18th.

M. W. B. Bell, Secretary

Stewart Administration Promises AND Performs

VERY little serious criticism has ever been heeded at the Stewart administration. This is because, in the first place, the principles of Liberalism, it has dealt fairly and justly to the people. It has shown a government of a constructive kind unhampered by considerations of political expediency, and always with the view of betterment. It has stood for the square deal for everyone in everything. Its record has witnessed unflinchingly and with dignity the best and the finest possible public criticism.

Alberta's Upward Progress

No greater tribute to the Alberta government could be paid than that offered by Mrs. M. Edwards of MacLeod, president of the provincial council of women who, in the first and second editions of her book on "The legal status of women of Alberta," says that "the women of Alberta are more favored in regard to legal status than those of any other province in Canada." Such a tribute might justly be applied to all classes in the province, for the legislative record of Alberta's Liberal administration has been one of consistently upward progress, many of the enactments placed on the statute books having been adopted by other progressive governments of Canada and elsewhere.

For Rural Districts

Although the needs of urban communities have been well looked after, the legislation enacted for the special benefit of the rural parts of the province is of striking importance. The appropriation this year for roads, bridges, and ferries is over ten and one-quarter million dollars, and a total appropriation for that purpose in five years six and one-quarter million dollars. The province has been covered by a network of telephone lines, so that not even the most remote districts are in at least instant touch with the populated centers. When unfavorable seasons are experienced in certain portions of the province, the government did not hesitate but paid out nearly one and one-quarter million dollars for seed grain, food and other relief. The

THE STEWART GOVERNMENT today stands behind an imposing record of legislation, created during the last fifteen years, that has truly met the needs of all classes of people in the province. The opening up of the great north country, the provincial guarantee of irrigation lands, the assurance of the bonds of drainage districts, the strenuous and successful effort to obtain water makers for Alberta, the legislation along practical lines directly affecting labor, including the workmen's compensation act; the dramatic strides in health legislation; the benevolent and unimpaired to the progressive policy of the government, and prove that, as the result of the Liberal rule in this province.

Alberta Has the Most Beneficent and Far-Reaching Legislation of any Province in Canada
